FIRE DISTRICT QUESTIONS

Star Fire Protection District Budget Levy Increase

The population within the 55 square miles of the Star Fire Protection District has grown by 70% since 2018. Residential properties have increased 69% and commercial properties are up by 410%. This dramatic growth has outpaced the District's manpower and budget authority. Annual calls for emergency services have increased from 877 in 2020 to 1,645 in 2024 and unit response times continue to increase.

The District's annual budget authority has NOT kept up and an increase is needed to cover staffing and annual operating costs. Impact Fees, paid by development, have funded the cost of the new Floating Feather fire station and fire engines. The requested increase will fund firefighter safety equipment, the annual cost of full-time staffing and operating expenses throughout the entire District.

Specifically, an increase of two million two hundred twenty five thousand dollars (\$2,225,000) in the District's annual budget from property tax is needed, beyond the amount the District is currently authorized to levy pursuant to Idaho Code §63-802, to commence Fiscal Year 2027, and which amount shall then be added to the District's current established base budget for the purposes of Idaho Code §63-802.

The budget increase to fund the cost of staffing and operating the new fire station, and to maintain District operations, is currently estimated to be an increase of \$37.93 per \$100,000 of taxable assessed value, per year, this estimate is based upon the value of taxable property within the fire district in 2025.
